

Our program could not exist without the volunteer Peer Supporters that give so willingly of their time, experiences and family wisdom with another family who may be just starting the journey of raising a child or adult with a disability or special need or is at a place where some additional support is appreciated. They are the Lifeline of the program. Interested, please fill out the "Become a Peer Supporter" form.

In addition to Peer Supporting, you can also get involved in the following ways:

- Volunteer to help your local Regional Coordinator exhibit at a conference and help spread the word about the Parent to Parent of Pennsylvania Program when local or state conferences resume.
- Volunteer to help present at a statewide conference in person or virtually and to have the opportunity to share how the Parent to Parent of Pennsylvania program has helped you or your family. You may also have the chance to tell your family story.
- If you have been successfully matched to a volunteer Peer Supporter write a "Journey Story" about how the relationship between you and your Peer Supporter helped to provide the emotional support and information you were seeking. Questions, please contact your regional office on the Home page under, About.
- Hand out the Parent to Parent of PA rack cards available in English and Spanish. The rack cards can be ordered in any quantity on our website at www.parenttoparent.org on the Home page under Communications....Thank You!
